III. School Facilities

School Facility Conditions and Improvements

This section provides information about the condition of the school's grounds, buildings, and restrooms, and a description of any planned or recently completed facility improvements.

Oxford Academy is a seventh through twelfth grade college preparatory high school, which opened in September, 1998. The facility was originally built in 1965 and used as a junior high school. The 24 acre site includes 40 regular classrooms, plus some portable classrooms at this time. There are 10 labs which are designed for specific programs (i.e. computer lab, science lab, choral music room, etc.) The site also includes a cafeteria, a media center and a variety of sports fields.

Maintenance and Repair: Site and district maintenance staff ensure that the repairs necessary to keep the school in good repair and working order are completed in a timely manner. A work order process is used to ensure efficient service. Emergency repairs are given the highest priority.

Cleaning process and schedule: The district has adopted cleaning standards for all schools. The administration works daily with the custodial staff to develop cleaning schedules to ensure a clean and safe school. All classrooms and restrooms are cleaned daily and deep cleaning, waxing of floors, and painting takes place during times when students are not in class. Students, parents, and staff are encouraged to report any objectionable conditions via a uniform complaint procedure.

Modernization and construction: Extensive modernization and new construction was completed in September, 2006. The estimated total budget for the project was \$21.2 million. The project included eight new classrooms and a gym. Six campus buildings including 33 classroom spaces were modernized.

IX. Accountability

Academic Performance Index

The Academic Performance Index (API) is an annual measure of the academic performance and progress of schools in California. API scores range from 200 to 1,000, with a statewide target of 800. Detailed information about the API can be found at the CDE Web site at <http://www.cde.ca.gov/ta/ac/ap/>.

API Ranks – Three-Year Comparison

This table displays the school's statewide and similar schools API ranks. The statewide API rank ranges from 1 to 10. A statewide rank of 1 means that the school has an API score in the lowest 10 percent of all schools in the state, while a statewide rank of 10 means that the school has an API score in the highest 10 percent of all schools in the state. The similar schools API rank reflects how a school compares to 100 statistically matched "similar schools." A similar schools rank of 1 means that the school's academic performance is comparable to the lowest performing 10 schools of the 100 similar schools, while a similar schools rank of 10 means that the school's academic performance is better than at least 90 of the 100 similar schools.

Adequate Yearly Progress

The federal NCLB Act requires that all schools and districts meet the following Adequate Yearly Progress (AYP) criteria:

- Participation rate on the state's standards-based assessments in English-language arts (ELA) and mathematics
- Percent proficient on the state's standards-based assessments in ELA and mathematics
- API as an additional indicator
- Graduation rate (for secondary schools)

Detailed information about AYP, including participation rates and percent proficient results by student group, can be found at the CDE Web site at <http://www.cde.ca.gov/ta/ac/ay/>.

AYP Overall and by Criteria

This table displays an indication of whether the school and the district made AYP overall and whether the school and the district met each of the AYP criteria.

Federal Intervention Program

Schools and districts receiving federal Title I funding enter Program Improvement (PI) if they do not make AYP for two consecutive years in the same content area (English-language arts or mathematics) or on the same indicator (API or graduation rate). After entering PI, schools and districts advance to the next level of intervention with each additional year that they do not make AYP. School Instruction and Leadership

This section provides information about the structure of the school's instructional program and the experience of the school's leadership team.

All students are placed in the best possible learning situation within the resources of the district. To accomplish this, instruction at each grade level is based on the Board adopted grade level standards. These district content and performance standards reflect the state guidelines in each content area. Instruction is also adapted to accommodate the varying interests and growth patterns of individual students and includes strategies for addressing academic deficiencies when needed. Students progress through the grade levels by demonstrating growth in learning and meeting grade-level standards and benchmarks of expected student learning achievement. It is the role of the site administrator to monitor instruction and student academic achievement. At Oxford Academy, the administrative team of one principal and one assistant principal work very hard at this responsibility. This team's achievements are evaluated annually by district administrative staff.

Professional Development

This section provides information about the program for training the school's teachers and other professional staff.

Teachers participate in a variety of District in-services as well as professional development workshops and conferences to enhance their knowledge and instructional skills. During the 2006 school year, vertical teaming was the focus of Oxford's on site professional development. The Peer Assistance Review (PAR) and Beginning Teacher Support and Assessment (BTSA) programs, district workshops, and professional conferences are opportunities for professional development. The District continues to train teachers in strategies to deliver a differentiated curriculum with depth and complexity. Teachers learn to utilize student assessment results in order to target instruction to better meet the individual needs of students. Classified staff members have many opportunities to participate in training designed to enhance their effectiveness with students. All district staff members are supported in their efforts to be considered highly qualified under NCLB.
